** MATH NOTES

- Siblings in different classes may share graphing calculators. However, siblings in the same classes will need access to their own calculator.
- Calculator batteries need to be kept at school for quick access
- **CALCULATOR USAGE POLICY:** All students must demonstrate a proficient and fluent ability to perform mental calculations and write them on paper. Only after sufficient demonstration and understanding will students be taught to use calculator technology. Along with the privilege of using technology such as calculators comes the responsibility to show/write down all work and calculations step-by-step.
