

ICA ALUMNI SUCCESS STORIES

Highlighting the stories of ICA's incredible alumni

Joe Boylson

ICA Class of 2016

Major/Area of Study: Software Development

Current Occupation: Software Engineer

Current Location: Cincinnati, OH

Name a memorable experience during your time at ICA: Going to DC for the Future City competition in 8th grade.

How did ICA help shape your career or life after graduation? ICA provided an excellent moral framework through the study of religion and history which I have brought with me into career decisions, important life choices, and managing the daily problems of life.

What advice would you give to current ICA students or ICA alumni who are preparing for high school or college graduation? Pay attention in religion, history, and english class - one day you'll miss them and realize how great those classes were.

What's something you're particularly proud of achieving since graduation? Trying to build a few startups and taking opportunities to solo-travel.

How have you given back or stayed connected with your alma mater? Certainly not enough, but in giving my time and energy towards a few smaller efforts: Church decorating, serving a few breakfasts after Mass, etc.

If you could go back and give your high school self one piece of advice, what would it be? At the end of the year, keep a few of the essay that you've written - you'll want to re-read them in 8 years.

What are some of your passions or interests outside of work? Photography, cooking, and traveling.

What is a favorite quote you'd like to share with our alumni and current students?

"Behold God is my helper, and the Lord is the protector of my soul; turn back the evils upon my enemies and cut them off in Thy truth, O Lord my protector"
